

## **Eastern Group Psychotherapy Society 2021 Annual Conference Equity Rate**

EGPS recognizes the historical and current impacts of systemic racism in the United States and worldwide and the inevitable complicity of EGPS with white supremacist practices. To advance our moral and professional aspiration to become an anti-racist organization, we offer a Racial Equity Rate for this conference that acknowledges past and current discrimination against Black, Indigenous, and other People of Color. The Racial Equity Rate is available to all conference participants (both EGPS members and non-members) who identify as members of racial and ethnic groups that have historically been denied equal access to education and training. If you so identify, regardless of financial need, we invite you to choose this 50% Racial Equity Rate at check-out on the registration form.
